Summary

With a background in design and passion for front-end engineering, I thrive in a collaborative setting with a goal of building clean and efficient interfaces for users. While currently focusing on React/Redux I'm also exploring other topics such as CI/CD, Express and GraphQL. I'm currently looking for a position where I can leverage my design skills while building out front end applications and continuing to grow as a front end engineer.

Education

University of North Florida

BFA with a concentration in Graphic Design and Digital Media

Experience

Turing School of Software & Design

Location | Denver, CO
Enrollment | November 18 - Present

- Seven month intensive coding school focused on frontend frameworks and libraries.
